WORK EXPERIENCE

Zentry — Product Designer

Apr 2024 - Present

- Led end-to-end product design for zTerminal and Nexus, owning core product experiences from discovery through delivery.
- Designed zTerminal, an AI-powered crypto analytics platform, covering UX, UI, design systems, interaction, and motion to simplify complex market data.
- Discovered product opportunities and shaped feature ideas through market and competitive research, collaborating with product managers on product strategy.
- Designed gamification experiences for Radiant and Nexus, working with POs, engineers, and game designers to translate complex mechanics into clear, intuitive user experiences.

SCB 10X — Product Designer

Apr 2023 - Apr 2024

- Led the design and development of AISEKAI, an AI character platform, from concept to global launch.
- Developed the design system and corporate identity for AISEKAI.
- Conducted product research and ideation with product owners and engineers.
- Collaborated cross-functionally across teams on product and development initiatives.

ACHIEVEMENTS

- Achieved significant market penetration in over **174 countries**.
- Reached **1 Million users** and **240,000** registered users
- Achieved an impressive average engagement time of **49 minutes**.

Coindee — UX/UI Designer

Jan - Mar 2023

- Conducted research and UI design about financial transactions and investments by using the jobs to be done framework to find users' needs or pain points, user journey, and competitors.
- Created new ideas and developed the products in the Coindee application.
- Designed the Coindee report on the website by creating user flows, a wireframe, and a high-fidelity prototype and coindee report template to use on the website

EDUCATION & ACHIEVEMENT

Bachelor of Fine and Applied Arts in Communication Design

2018 - 2022 King Mongkut's Institute of Technology Ladkrabang

Senior Project: "Exhibition Design Project Reflecting the Photo Over-Sharing Behavior of Modern Parents" for the Last Long Exhibition
